### INTRODUCTION

Despite Malaysia's remarkable achievements in health and education for her people, BUT there are still some children endure troubled and painful childhoods due to economic, social and rural-urban disparities.

**Joyful Childhood** is a program that fully handle by the student and has been conceptualized to meet the needs of the unfortunate children. This program aimed to improve the quality of life of the unfortunate children so that they are free from painful childhoods .Meanwhile, It is also aimed at giving assistance, aid and care to the children by giving them some skill- training so that they are able to use the skill to generate some income.

### PROJECT OBJECTIVES

**Joyful Childhood** is holding the following objectives:

- To improve the quality of unfortunate children's life so that they are free from painful childhoods.
- To expose them to a more sociable environment/ to communicate more with strangers.
- Provide a space for participants to develop their mind creatively and critically. Additionally, it also help in shaping the minds to be more accurate, creative and innovative competitive in line with global trends.
- Promote awareness among the University's community of students and staff as well as the public about current scenario of inadequate care and attention of some of the children.

4	27 NOVEMBER 2015	<p><b><u>NIGHT - AWARENESS SPREADING</u></b>  <b>( 2 HOURS )</b></p> <p>This is a charity night that aimed to give the awareness to public about current scenario of inadequate care and attention of some of the children. Meanwhile, we will raise fund for the children as well. The ticket for this night will be RM10-RM20. Children are free of charge. Video will be display during the night. There are others performances also during the night such as sharing session from the children, performance by the children and so on. Orphans that involve in our project and student all around Malaysia will be invited to our night. The venue will be in the chancellor hall of UTP and estimate of 1500 participants.</p>	
---	------------------------	--	---

- The video will bring the concept where everyone deserve have a good childhood. We have a good childhood but not all children in Malaysia have it. So, let's us put some effort to make all the children in Malaysia have an AWESOME childhood.

## PROJECTS BENEFICIARIES

Children: Improve their life and give them a better childhood. Apart from this, children are also connected to the outside world and will not feel left out from the society.

Volunteer Committees: Learn to take care and communicate with the children and knowing that they have the ability to help the community. Given that, they can also put them in the children shoes,

appreciate things they're having now. They will develop a strong sense of empathy to the unfortunate children.

Society: Increase the awareness about current scenario of inadequate care and attention to the younger generation. Develop the strong sense of empathy to the unfortunate children.

### EXPECTED PROJECT RESULTS

- Unfortunate children have a better life as well as a happy childhood.
- Children will have hands on skill that can produce side income for them.
- Children have more self-confidence and have more accurate, creative and innovative mind which will help in their future development.
- Public have the awareness about current scenario of inadequate care and attention to the children. They will start to put some effort to help those who in need.
