

Just as stated in the proposal, the goal of having this event is to spread the knowledge of Chinese culture and Chinese traditional costumes to the Chinese students from different universities in Malaysia. Furthermore, this event is held to attract interest and increase the knowledge of Chinese cultures and manners among the Chinese students from different universities in Malaysia by encouraging them to wear Hanfu in their daily life and in university and spread their knowledge about Chinese cultures to others. Other than that, we also hope that this event can be held again and again in order to protect our culture.

After this event, I am happy to say that, we made in. All the participants gain knowledge about Chinese culture, some of them even cried when they are able to wear their traditional costume for the very first time. All participants said that they can't wait to spread these precious culture to their friends and family. I am glad that I had fulfilled my goal after all the hard work for months.

To be honest, this event really did cost a lot, the fund from Khind Starfish Foundation was truly not enough. That is why we had to collect participation's fees from the participants. Other than that, all the committee have to raise fund for this event too.

The biggest problem I had was some of the Hanfu was stuck in the airport because a lot of people shopping online from TAOBAO. Although I had estimated the time arriving, I cannot detect such sudden case that delayed the time arriving. I was so stressed out that time but still I have to figure out a PLAN B. Luckily I still managed to get most of the Hanfu. For some participants without Hanfu, I had lent some committee's Hanfu with similar size as the participants in order to let them experience and learn to wear Hanfu. For the delayed ones, I managed to send it to those participants through poslaju.

1st Chinese Cultural Camp UPSI

Moreover, this event gave a long-term impact to all 22 committees and 60 participants because what they had learnt will be passed to more people. Some even said that they wanted to hold this kind of event in their university to spread Chinese Cultural knowledge to more people in their university. From this event, I have learnt that “When you fail, you need self-reflections instead of reasons to blame.” (行有不得，反求诸己)

Before this, I did not know that holding an event, especially a two days one night camp was that complicated and difficult. I need to go through a lot of paperwork and procedure as this was a university event. Furthermore, there is a lot of preparation before, during and after the event. We even had a two days training camp two weeks before the Chinese Cultural Camp in order to give our best shot. Through this event, I really learn a lot about Chinese Culture, gain a lot of experiences. Just as Colin Powell said “A dream doesn't become reality through magic; it takes sweat, determination and hard work.” Having a Chinese Cultural Camp in my university was my dream, that is why I really appreciate that my lecturer (Doctor Khor) and Khind Starfish Foundation gave me this golden opportunity to make my dream come true. “Wearing Hanfu, starts from you and me” (穿汉服，从你我开始) (Quote indicated by Gwyn Chew Kar Yan to encourage more Chinese to start wearing their traditional costume – Hanfu)

Thank you so much.
