

FINAL REPORT PROJECT FOR HAPPINESS 2017

'CLEAN RIVER FOR RECREATION'

- SECTION I

- PROJECT SUMMARY

After the project was implemented, young generations know the negative impact of stream contamination and water pollution. In addition, this project also increase awareness and encourage young people from the local community in the importance of clean river.

- FUNDS FROM OTHER SOURCES

Other than Khind Company, Universiti Teknologi MARA (UiTM) Campus Pasir Gudang also provides funds in terms of program preparation for example buses.

- PROJECT DETAILS

“Clean River For Recreation” contains 3 activities which is awareness, cleanliness and recreational. All related activities take 4 months to be carry out only on weekend. We have difficulty installing traps on the river. We do not face the problem of budget constraints due to cleaning cost is low by using a water bottle used as float to collect human waste. We communicate really well due to same race. All people around the river especially local community from Kampung Belantik will get the benefits from this project. The amount of waste can be reduce and the stream clean so that people there can get numerous benefits to mankind. “Clean River For Recreation” may be one of the inspiring ideas that will change the minds of the young people and local community towards of negative thinking and importance of clean river.

- SECTION II

- All activities that have been carried out, the participants of Kampung Belantik as well as the locals can change their mentality to maintain river cleanliness at once this project contribute happiness to community. Even though, it's a short-term but the community will always remember steps and ways of keeping the river clean from the awareness week that have been exposed.

We realise that there are peoples who have a third class mentality because they do not have the awareness of the importance of a clean river in their life. We can learn how to deal with the top party that open our minds that it's not easy to organize a big event.

- **“We can help the community to keep their surrounding clean and deliver happiness to them. Last but not least, it's can help participate and our team to increase confidence level”** – Nur Aainun Mardhiah Binti Ja'afar
