INTRODUCTION

Established in August of 2015, Buku Jalanan Chow Kit aims to provide literacy and nutrition to all children in the Chow Kit catchment area and work together with the NGOs that serve the Chow Kit community. We are open to all who are in need, regardless of race, religion and background. Every Sunday, from 8 pm to 11 pm, BJCK held its English and Mathematics classes for the children of Chow Kit in the open air loading bay area of Alka Ria Textile Building. Meanwhile for the mothers of Chow Kit, counseling and therapy session is conducted by a professional therapist side by side with a Quranic class for the muslim mothers. To further improve our cause a module of our own that caters to the academic level of the Chow Kit children is in the planning.

PROJECT OBJECTIVES

To create Buku Jalanan Chow Kit very own English and Mathematics module that is specially catered to the academic level of the children of Chow Kit.

Application Form

[Project Name] Buku Jalanan Chow Kit (BJCK)
Module
[Your Name] Aainaa Rozliman/ Atikah Yusri
[Courses] Mathematics
[Project Completion Date] December 2016

[University/college] University Malaya
[Bank name] CIMB Persatuan Buku Jalanan Chow
Kit

ACTIVITIES AND TASKS

- 1) Creation of English Modules that specializes in phonetic reading, grammar and comprehension of different levels of literacy.
- 2) Creation of Mathematics Modules categorized by different levels of difficulty and scope where each level is provided with flexible problems and intensive exercises/practices.

PROJECTS BENEFICIARIES

Children of Chow Kit

EXPECTED PROJECT RESULTS

- 1) Students graduate from every level in the BJCK English and Mathematics module.
- 2) Increase in fluency, grammar and comprehension of the English Language by the students of BJCK.
- 3) Growth in mathematical expertise and understanding by the students of BJCK.

PROJECT TIMELINE

August 2016 – Creation of Mathematics and English modules.
October 2016 – Further improvement and revision of the modules.
November 2016 – Booking and printing of the modules.
December 2016 – Usage of the module by BJCK students

BUDGET

Number of students of BJCK = 100 students

Approximate budget for the English Module (per student) = RM 50

Approximate budget for the Mathematics Module (per student) = RM50

Total cost = 2(100 x RM50) = RM10,000
